Safety 1st Baby On Board Sign 48918

Adding a new member to your family is exciting! Let everyone know that you've got precious cargo on board with the classic sign by Safety 1st. It attaches easily to your car's window and reminds others to drive safely.

- Attach this sign to your car window to remind others to drive safely
- Suction cup attachment
- Makes a fun shower gift

Travel Safety

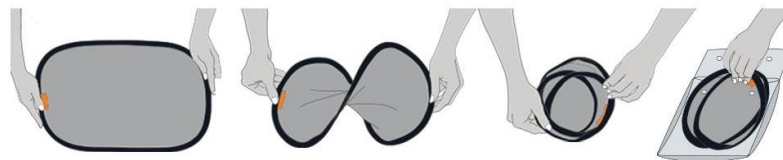

Dreambaby Insta-Cling Car Shades L1203

Dreambaby® Insta-Cling® Car Shades are a fantastic, innovative way to help protect the whole family from the sun's powerful UV rays while driving. The shade simply attaches to the window, without the need for suction cups.

With its sturdy wire frame the shade will instantly pop up and static cling to the window, which means there is no need for suction cups which can mark car windows. The shades can be repositioned over and over again making them great for use in multiple vehicles.

- UPF 50+ sun protection
- Instantly pops up and sticks to the window
- Static cling means there is no need for suction cups, which can mark car windows
- Can be repositioned over and over again
- Mesh screen can help to reduce glare on sunny days
- Simply folds away into a compact, easy-to-store, re-usable bag
- Includes two easy to fold shades and storage / travel case

Easily Folds Away - Great for Storage or Travel

Safety Gates

Safety Gates

Safety 1ST Bamboo Doorway Gate GA0350

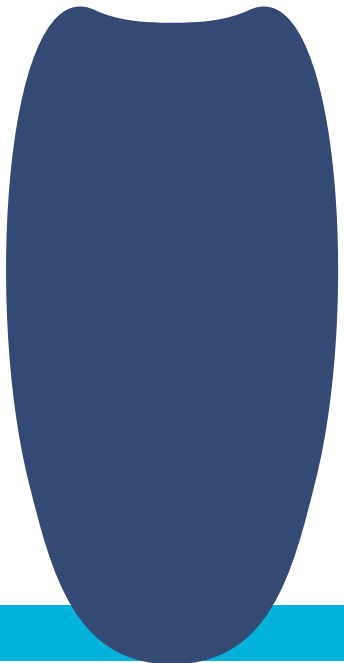

The Safety 1st Bamboo Doorway Gate helps you keep your baby in the child-friendly areas of your home. Made from durable bamboo, this sturdy baby gate also features 100% recycled plastic panels in an attractive darker color that complements many different styles of home decor. The gate can be used in doorways and openings anywhere from 28 to 42 inches wide, where it provides a barrier that is 24 inches tall. Pressure-installed gates provide flexibility in usage around the home. Wall cups stay installed to the wall while the gate can easily be removed for periods of non-use. It folds compactly to tuck away out of sight when not needed.

- Durable bamboo frame and recycled plastic panels
- Pressure-installed gate is quick to set up and easy to take down when not in use
- Subtle, see-through mesh design
- Fits most doorways and works between rooms or at the bottom of the stairs
- **TO PREVENT FALLS, NEVER use pressure-installed gate at top of stairs**
- Includes four wall cups. Must install with wall cups to keep gate in place
- 28"-42" wide, 24" high
- JPMA certified and meets CPSC requirements

Safety Gates

Safety 1st Lift, Lock, & Swing Gate GA048

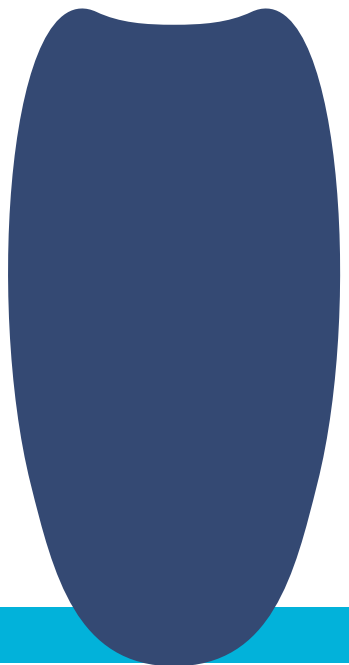

Looking for a gate that works all over the house? The Safety 1st Lift, Lock & Swing Gate has a unique 2-in-1 design which allows it to be used in either of two modes. You decide which mode best fits your needs: mount it at the top of the stairs for maximum security as a hardware swing gate or place it in your doorway as a pressure-installed security gate that's easy to move out of the way during periods when it isn't needed. In either mode, the gate helps keep your baby or pet away from out-of-bound areas. For easy operation, the gate features a complete-control top handle that lets you lock, release, and adjust as needed.

- Hardware or pressure-installed design for use all over the home
- Pass-through swing convenience when hardware mounted
- Lift-to-release design when pressure-installed
- For use at top of stairs, bottom of stairs, or between rooms
- One-hand, top-release handle
- 28"-42" wide, 26" high
- Includes four wall cups. Must install with wall cups to keep gate in place.
- JPMA certified and meets CPSC requirements

Safety Gates

Safety 1st Easy Install Walkthrough Gate GA105

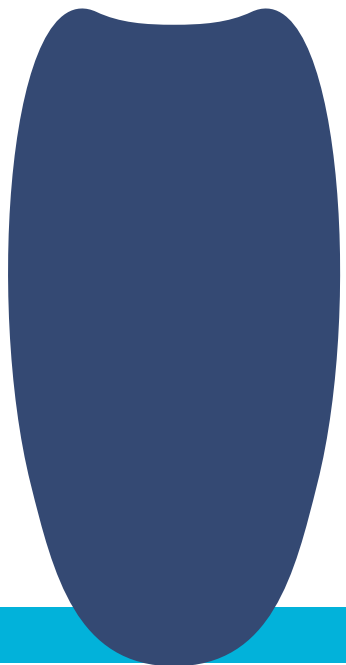

Now that baby is on the move, the Safety 1st Easy Install Walk-Through Gate makes it simple to create child friendly areas within your home. For use between rooms, a walk-through gate makes it easy to get around the house, with no need to reinstall it each time you pass by. Pressure-installed gates provide flexibility in usage around the home. Wall cups stay installed to the wall while the gate can easily be removed for periods of non-use. This pressure installed baby gate is 28 inches high and can be adjusted from 29 to 38 inches for doorways of varying widths throughout your home. The Safety 1st Easy Install Walk-Through Gate isn't just for kids either. It comes in handy when you're trying to keep pets out of certain rooms as well.

- Quick & easy install: Visual red indicator lets parent know gate is unlatched or improperly pressurized
- Pressure-installed gate is quick to set up and easy to take down when not in use
- The two-action handle is tough for little fingers to release
- Fits most doorways and works between rooms or at the bottom of the stairs
- TO PREVENT FALLS, NEVER use pressure-installed gate at top of stairs
- Includes four wall cups. Must install with wall cups to keep gate in place.
- Adjustability in width: up to 32" with main gate; up to 35" with one extension (included); up to 38" with two extensions (included).
- 28" high

Safety Gates

Safety 1st Ready To Install Top of Stairs Gate GA110

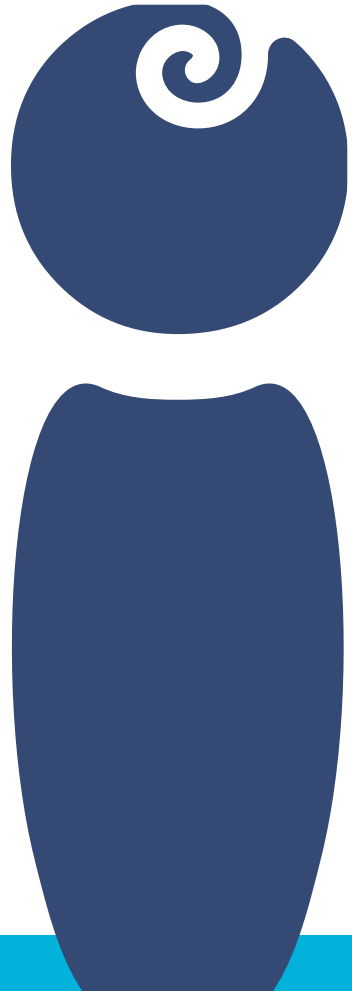

Now that baby is on the move, you can easily keep stairways off limits with the Ready to Install Gate from Safety 1st. This hardware mounted security gate with a no trip design is perfect for any room in the home including the top of stairs, bottom of stairs, and between rooms. There's no measuring, marking or need to level thanks to the innovative packaging. The gate comes out of the box in one piece to ensure your install will be hassle free. While other gates require multiple parts, and extra steps that lead to frustration; this fully assembled gate installs easily in 15 minutes - half the time of a standard gate install. Operating this safety gate is easy too. The no threshold design means no trip hazard at the top of the stairs. One-hand operation and a swing-open door make it easier to pass through, and the gate closes with just a push, letting you get on your way. *Note: Requires a flat mounting surface at least 3.5" wide.*

- Fully assembled for a hassle-free install
- Screwdriver-friendly design for drywall installation. Drill is needed for wood installation
- No parts to lose
- Special drywall screw design. Anchors needed if not installed into a stud.
- One-hand operation and swing open door make it easy to pass through
- Gate swings shut easily
- No threshold design = no trip hazard at top of stairs
- Hardware mount for maximum security at top of stairs

Home Safety

Home Safety

Safety 1st Ultra Clear Plug Protectors 01711

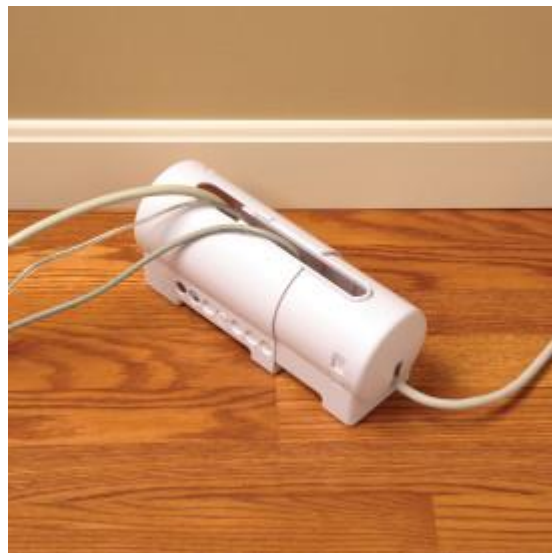

It's fun watching your baby crawl and toddle around the home, and it's easy to provide them with a safer environment to explore. Specially designed to go unnoticed by children, these Ultra Clear Outlet Plugs by Safety 1st help you protect your curious child from unused outlets.

- Protects electrical outlets with child-resistant rounded edges
- Clear design is removable and reusable
- Fits both two and three prong outlets

Home Safety

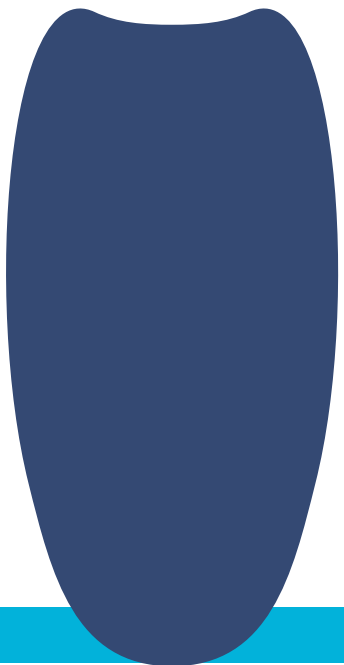

Safety 1st Power Strip Cover 10409

Make your home a safer place for your child to play in and explore with the Safety 1st Power Strip Cover. Protect curious little fingers from your power-strip outlets with this adjustable cover. Able to expand and fit power strips up to 13.5 inches, it also covers the plugs, preventing them from being pulled out. The cover can also mount on the wall. Press side tabs to slide it open and insert your power strip inside the inner cover. Plug in your appliances, and replace the cover—the cords extend from the top. Use this safety cover in the nursery, near the telephone, in your home office, or anywhere else you spend time with your child. This kit includes one power strip cover. Remove the cover to clean, wiping it with a damp cloth and allowing it to dry. Safety 1st believes parenting should have fewer worries and more joyful moments, so you enjoy every “first” your child experiences.

- Easily adjusts to securely enclose a full power strip
- Can be wall mounted
- Ideal for home offices, telephones, and nurseries

Safety 1st Outlet Cover with Cord Shortener 48308

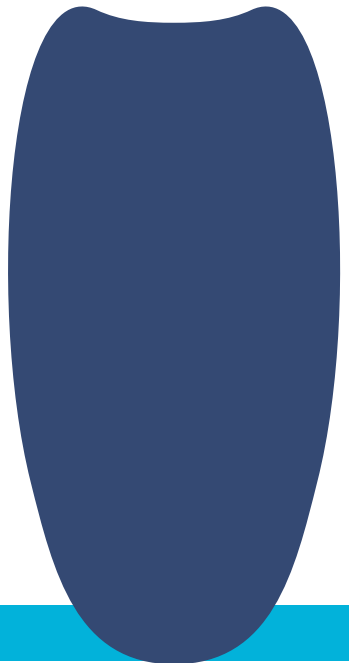

Make your home a safer place for your child to play in and explore with the Safety 1st Outlet Cover with Cord Shortener. Help keep curious little hands away from potentially-dangerous electrical outlets with this outlet plug cover. Covering the entire outlet, the cover keeps excess appliance cords off the floor, storing up to four feet of cords, depending on thickness. Easily remove and replace the outer cover with the child-resistant dual-press operation by simply pressing both side tabs simultaneously, while gently pulling the cover away. Along with appliances like lamps, televisions, and computers, the outlet cover works great with standard-size phone chargers, safely winding their cables out of sight. This kit includes one replacement wall plate and cover. A flat-head screwdriver is needed for installation. Remove the cover to clean, wiping it with a damp cloth and allowing it to dry. Safety 1st believes parenting should have fewer worries and more joyful moments, so you enjoy every “first” your child experiences.

- Covers outlets in use and secures excess cord
- Dual press and release design
- Great option for standard-size phone charging cords

Home Safety

Safety 1st Plug Protectors HS229

Help get your home ready for your little explorer with Plug Protectors from Safety 1st. The protectors are removable and reusable and help stop sharp objects or fingers from poking into unused electrical outlets. This 36 pack of protectors gives you coverage for multiple rooms in your home.

- Helps prevent children from putting sharp objects or fingers into unused electrical outlets
- Removable and reusable
- 36 pack

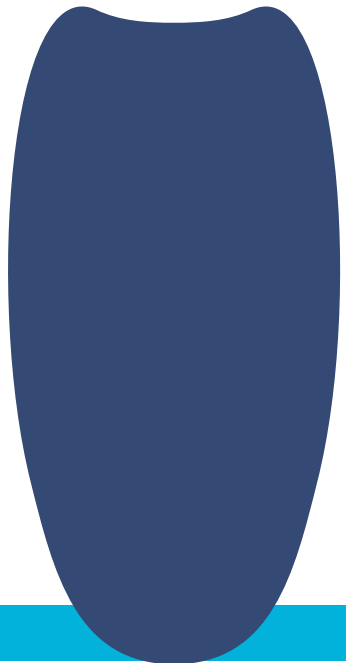

Home Safety

Safety 1st Furniture Wall Straps 11014

Keep your little explorer safer while at home with Safety 1st Furniture Straps. Toddlers often see furniture as a fun jungle gym, but their efforts to climb up can throw even heavy pieces off balance. These sturdy straps secure your furniture to the wall and help prevent your climbing child from accidentally tipping things over.

- Durable woven straps secure furniture to wall
- Ideal for bureaus, book cases, shelf units, and armoires
- 2 pack

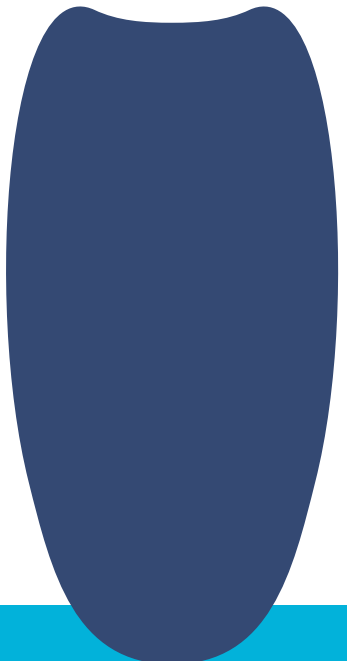

Home Safety

Safety 1st Clearview Stove Knob Covers 48409

Young children love to explore and find knobs fascinating. Help keep your stove knobs off-limits with the Clear View Stove Knob Covers from Safety 1st. These child-proof, clear covers help protect curious minds from danger while parents aren't looking.

While the covers make it difficult for children to access the stove, parents can easily take the covers off. A hinged lid allows for easy adult access when needed – all you need to do is simply pop it open to access the knob when it's time to cook. To give you a clear indication that your stove knobs are safely in the off position, the covers are see-through.

These stove knob covers are made from durable, heat-resistant plastic to resist wear and hold up to repeated use. Featuring a universal design, these plastic safety stove knob covers are oversized to fit the knobs of most modern appliances.

Please note: Safety 1st Clear View Stove Knob Covers are for indoor use only.

- Universal design
- Hinged lid for convenience
- Durable and heat-resistant
- Easy, non-adhesive attachment
- Clear, see-through design

- Fast, simple installation
- Cut-to-fit where you need them
- Suitable for use on wood, glass, or stone
- Easy to remove when no longer needed
- Great for coffee tables, end tables, and media centers
- Sculpted minimalistic design and colors blend in with home décor
- Includes a 12 foot roll of foam and 4 corner cushions

Home Safety

Safety 1st Outsmart Flex Lock HS271

Curious kids try to get into anything and everything, but the Safety 1st OutSmart™ Flex Lock helps you keep them out with the first ever decoy button. Your child will think that the decoy button opens the lock, but pushing it has no effect. You'll know that the flexible surface hides the actual secret to opening the lock.

It installs easily with no drilling required. The adjustable straps let you get a customized fit for cabinets with hardware up to 8 inches apart and can be used on cabinets with either knobs or handle pulls. For periods of non-use, this cabinet lock hangs conveniently out of the way, but stays close for when it's needed again.

In side by side comparisons with leading competitors using real life toddlers, the Safety 1st Outsmart Flex Lock was strong enough to keep even the cleverest of toddlers out. Even in lab testing using state of the art mechanical pull force equipment, Safety 1st outperformed the competition. Toddler Tested. Proven Stronger.

- Prominent decoy button can be pushed by child, with no effect
- Flexible surface hides functional buttons in plain sight
- Easy installation with no drilling required
- Fits on both cabinet knobs and handle pulls
- Hangs conveniently out of the way for times when it's not needed
- Adjusts to fit cabinets with hardware from 3" up to 8" apart
- Proven stronger against leading competitors in mechanical pull force tests – and with real-life toddlers (as of September 2017)

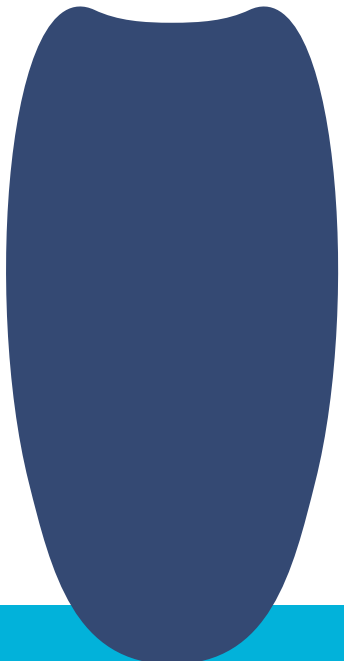

Safety 1st Outsmart Slide Lock HS272

Curious kids try to get into anything and everything, but the Safety 1st OutSmart™ Slide Lock helps you keep them out with the first ever decoy button. Your child will think that the decoy button opens the lock, but pushing it has no effect. You'll know that the flexible surface hides the actual secret to opening the lock. The OutSmart Slide Lock is designed to work with hardware up to 4.5" apart and can be used on cabinets with large knobs or handle pulls. In side by side comparisons with leading competitors using real life toddlers, the Safety 1st Outsmart Slide Lock was strong enough to keep even the cleverest of toddlers out. Even in lab testing using state of the art mechanical pull force equipment, Safety 1st outperformed the competition. Toddler Tested. Proven Stronger.

Home Safety

Safety 1st Adhesive Cabinet Latch HS310

The first time your little one walks across the room is very exciting, but the first time they get into the cabinets is not. For your toddler, opening a cabinet is a fun game of emptying everything out. Keep them from gaining access to everything from breakable objects to your secret candy stash with our Safety 1st Adhesive Cabinet and Drawer Latches.

Installing the lock is easy – just peel and stick, no tools necessary – making it the perfect choice for renters or anyone who doesn't want to damage their cabinets. It even comes with an easy-to-use installation template so you can perfectly align the latch and lock for the right fit without any measuring.

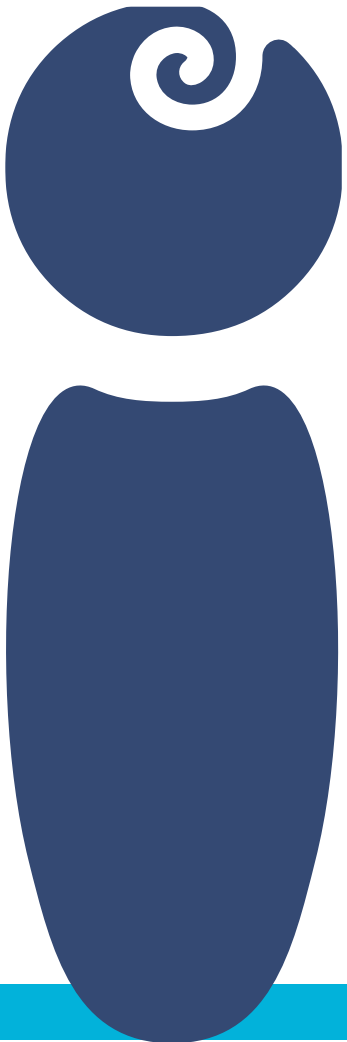

You can also keep it in “unlock mode” for any period of time, which lets you prepare dinner without having to unlock the drawers and cabinets every time, or for the grandparents who only need them for childproofing when the grandkids are visiting.

Have a super strong toddler on your hands? No need to worry because our Adhesive Cabinet and Drawer Latches have been toddler tested and proven stronger in both real life and mechanical lab tests, outperforming the competition.

- Easy installation: just peel and stick! Comes with an easy-to-use installation template so no measuring needed
- No tools necessary for most cabinets. Some materials, such as particle board, require the use of screws (included)
- Perfect choice for renters or anyone who doesn't want to damage their cabinets
- Disengages for periods of non-use
- Toddler tested and proven stronger in both real life and mechanical lab tests, outperforming the competition

Home Safety

Safety 1st Parent Grip Door Knob Covers HS326

Once toddlers learn how to twist the knob, they open the door to a new world of potential danger. Keep your little explorer from off-limits areas with our durable and strong Parent Grip Door Knob Covers.

This new design has a wider base to fit most standard door knobs and it's easy to install with a few simple clicks. It's also easy for parents to grip when opening the door, all while being difficult for kids to figure out how to use. The improved polypropylene snaps are stronger than ever before and help keep the cover from coming off the knob when curious little fingers pull on it. Designed to blend in with your home décor, this pack of four gives you coverage for multiple doors in your home.

- Easy for parents to install and use
- Knob cover spins freely so tiny hands can't twist the door knob open
- New and improved polypropylene snaps are stronger and more secure
- Design blends in with home décor
- Made to fit most standard door knobs

DreamBaby Keyless Window Restrictor L928

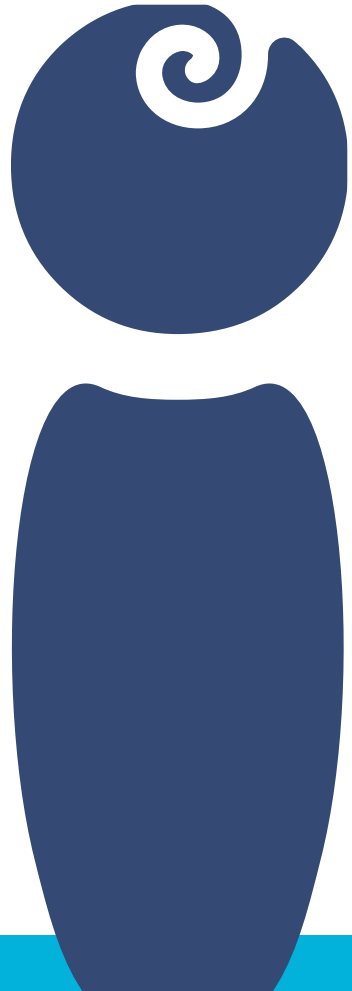

There is a whole world happening right beyond your home that can entice your children to the window. That's why Dreambaby® created the Breezz-Guard® Keyless Window Restrictor. It helps prevent children from opening the window beyond a safe distance, reducing the risks of falls. This latch is great for windows all throughout your home. They can be used on aluminum, wood, or plastic frames and is suitable for sliding, sash, and outward/inward opening windows accommodating most homes. The Breezz-Guard® allows you to open the window and enjoy the weather while knowing your family is safer. The locking mechanism is simple, just insert the cable head and slide it into the locked position. When it's time to clean the windows, it can be easily disengaged by an adult. You will install the Dreambaby Breezz-Guard® so it limits the window opening to 4 inches (10cm) at its widest point. The easy to follow instructions are enclosed in your pack.

- ULTIMATE IN SAFETY:** As children grow they begin exploring, opening anything they can get their hands on, which is why Dreambaby® created the Breezz-Guard®. Install it to limit the window openings to a safe distance of 4 inches (10cm)
- SIMPLE OPERATION:** The locking mechanism is simple, just insert the cable head and slide it into the locked position. When it's time to clean the windows, it can be easily disengaged by an adult
- BREATH OF FRESH AIR:** If you love the crisp air on a fall morning or listening to the world come alive in the spring, you can continue indulging in these simple pleasures while keeping your child safer
- WORKS ON ALL KINDS OF WINDOWS:** Use the Breezz-Guard® throughout your home on different windows of different sizes. It works for most aluminum, wood, and plastic hinged, sash, and sliding windows (including both horizontal and vertical) making it a top choice for any family
- Winner of 2019 Preferred Choice Award in the Child Safety Aids category and the 2019 Preferred Choice Award in Child Safety Products!**

Safety 1st Home Safeguarding Set HS265

The Home Safeguarding Set by Safety 1st makes it simple to include safety in your plans when preparing the nursery and other rooms of your home for your new baby. These 80 essential safety items will help you make things safer for your new bundle of joy. The set includes 40 plug protectors, 6 Grip 'n Twist Door Knob covers, 30 Cabinet & Drawer Latches, and 4 Cabinet Slide Locks to help you secure multiple rooms in your home.

Outlets are close to the floor and easy for curious children to reach. Installing Plug Protectors helps prevent young children from accessing unused outlets, with a smooth, non-grip design and opaque color that goes unnoticed by children.

Some rooms need to be completely out of bounds to little explorers. Grip 'n Twist Door Knob Covers allow parents easy access to the door knob, but stop young children from entering the room. The covers are easily assembled around your door knob; simply click the two halves together by aligning the interlocking tabs. To use, grab the door knob through the holes in the cover and turn.

Cabinets contain cookies, snacks, and other food that children shouldn't have easy access to. Install Latches on cabinets or drawers and use Cabinet Slide Locks on cabinets that are side by side. These devices help keep curious children from getting inside.

Remember, safeguarding the home early will help make things easier for the whole family as your child grows. Begin by preparing the nursery before baby arrives; and the kitchen, bathroom, and other common areas before your baby starts crawling.

- Essential safety items for multiple rooms
- 4 Cabinet Slide Locks for preventing access to double door cabinets
- 6 Grip 'n Twist Door Knob Covers to keep adult-only rooms off-limits
- 30 Cabinet & Drawer Latches to help keep items inside away from curious children
- 40 Plug Protectors for preventing access to unused outlets

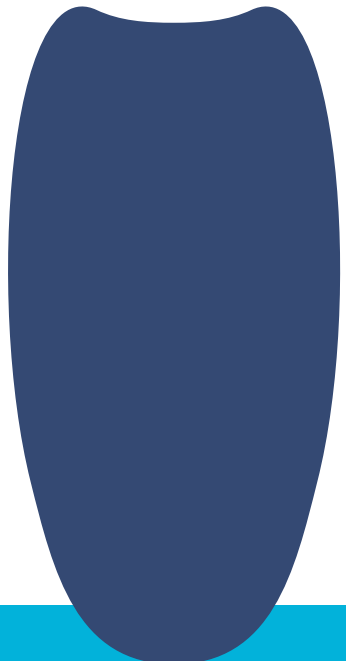

Home Safety Kits

Safety 1st Safety Essential Kit HS267

Help prepare for your curious crawler with the home Safety Essentials Set from Safety 1st. This set includes 46 pieces to start you on your way to a safer home. Cabinet and Drawer Latches help prevent access to these areas in the kitchen, bathroom, or other rooms in your home. Grip 'n Twist Door Knob Covers help keep your little explorer away from out-of-bounds rooms. There are also plenty of Plug Protectors that will give you coverage for multiple rooms and help prevent access to open outlets.

- Easy solutions to help you create a safer environment for your child
- 46 essential home safety items
- 4 Grip 'n Twist Door Knob Covers
- 12 Cabinet & Drawer Latches
- 30 Plug Protectors
